

Tangent90 is an eclectic, enthusiastic team of innovators, developers, practical problem solvers and client services professionals, whose breadth of experience across a wide range of industries enables us to deliver intuitive solutions to complex challenges.

We are looking for a Software Developer with full stack proficiency to complement our team of experienced professionals based at our office in Slough, Berks - currently remote working is in place. This is a fantastic opportunity for a motivated and collaborative individual with outstanding technical credentials to work for a prime digital solutions company with aggressive growth plans. Are you looking for your next career move? Come and join us!

Software Developer
Salary - commensurate with skills experience
Competitive benefits package

How do we envisage that you could prosper in this role?

In addition to the key technical skills, we anticipate that the archetypal qualities possessed by our Software Developer will include:

- Strong development and organisational skills and an exemplary attitude to time management, meeting tight deadlines whilst still maintaining attention to detail
- Ability to identify potential challenges and raise in timely manner to meet deadlines/deliveries
- Excellent verbal and written communication skills, confident liaising with colleagues (and clients as and when required) using traditional methods of phone calls/email, and participating in regular Teams meetings
- Friendly, enthusiastic, flexible and pro-active work ethic, able to work independently and as part of a close-knit team
- Talent for exploring new products and creating procedures; desire to learn and innovate

The key responsibilities of our Software Developer will include:

- Coding and debugging various development projects, improving it on a daily basis
- Managing internal requirements
- Any other requirements as reasonably requested

Our Software Developer will have knowledge of the below, not all are vital but could be advantageous:

- Full stack developer, with particular knowledge of Java, Spring, Hibernate ORM and a relevant degree
- Technical competence in HTML; CSS; JavaScript; Java/Objective-C/Swift/c#. Experience creating responsive sites and/or CMS experience beneficial. A background in Java, SQL/Databases, Spring/Hibernate invaluable
- Knowledge of working with RESTful APIs (back-end and front-end) beneficial
- Familiarity of mobile development would be an advantage
- Cognizance with using version control systems e.g. Subversion or GIT
- Some commercial industry experience is an advantage with a good understanding of OOAD
- Agile knowledge would be useful
- Any experience with Veeva Systems is a major bonus

Finally - the position is full time and based in Slough.

If you are interested in becoming part of a company destined for great things and are motivated by a fast-paced environment, we'd like you to join us. A career with Tangent90 will offer you real accountability, the freedom to do your job and a friendly, supportive environment.
